DPS/NZR/Admn/2026/36

15th September 2026

Dear Parents

Greetings!

As part of our commitment to holistic, 21st-century learning, **Mental Maths and Logical Reasoning** will be introduced as individual subjects from the Second Term of the Academic Session 2026–27 for Classes III to VIII. These subjects will focus on strengthening students' analytical thinking, logical reasoning, problem-solving and decision-making skills.

The students' performance in these subjects will be assessed through a grading scale and reflected separately in the Annual Report Card, providing a meaningful insight into their progress and development in these key skill areas.

We welcome constructive suggestions and valuable inputs from parents as we continue to enrich the learning experience and prepare our students for the challenges and opportunities of the future.

Principal
DPS ONGC Nazira
